Work Restraint Kit FA8000100

Product information

Work restraint kit is a complete PPE solution designed to prevent workers from reaching fall risk zones. It includes a full body harness and an adjustable restraint lanyard, allowing controlled positioning while maintaining safe working distance from edges. This kit is intended for tasks where fall prevention is required rather than fall arrest.

When to choose this product

Best for:

- Work on roofs, platforms, and structures with defined safe zones
- Maintenance tasks where movement must be restricted near edges

Product benefits:

- Adjustable restraint lanyard controls working distance from fall hazards
- Full body harness supports secure attachment and load distribution
- Simple configuration reduces setup time on site
- Steel connectors with locking mechanism improve connection security

Kit contains:

- A body harness FA 10 102 00
- A Kernmantle rope lanyard length 1.50 m FA 40 500 15
- Two steel screw karabiners FA 50 101 17
- A jute bag is supplied with this kit.
