

## Stainless steel pallet truck

### Product information

Stainless steel model for the food industry or other applications where the pallet truck is exposed to moisture and repeated washing. The pallet truck is equipped with tandem wheels at the front and is easy to push and move. The 210° turning angle allows for agile movement, and the maintenance-free hydraulic unit ensures trouble-free use. Equipped with an overload valve.

**Features:** Wheels: Nylon

**Material:** AISI 304

**Marking:** CE-marked
