Shackle Stainless Steel Gunnebo No 730

Product information

Stainless Steel Shackle No. 730 is a Dee shackle with a screw pin for fastening in rigging assemblies. Made from AISI 316 stainless steel, it is suited to marine and demanding environments. Available variants have WLL ratings from 0.4 to 3 tonnes; select the size for the load and connection, and do not exceed its rated WLL.

Best used for:

- Rigging connections in marine and other demanding environments.
- Applications requiring a removable screw-pin shackle.

Product benefits:

- The screw pin supports secure and straightforward fastening.
- AISI 316 stainless steel resists corrosion in marine conditions.
- The polished finish enhances appearance and durability.
