Webbing corner protectors for webbing slings

Product information

Haklift web sling sleeve corner protectors are designed to protect webbing slings from wear caused by sharp edges and abrasive surfaces. They improve lifting safety and extend the service life of webbing slings, especially in demanding lifting, construction, and industrial applications.

The corner protector is made from 100% polyester, which provides good resistance to mechanical stress and maintains its shape during use.

The corner protector is threaded directly onto the lifting sling before use, making it a simple and mechanically reliable solution without separate fastening mechanisms
