

## Chain Connection PowerPoint® RUD PP-VIP

### Product information

- Rotating 360°, pivoting 230°
- Universal, unmistakable VIP connection for chain, hook and eye
- Double ball bearing for turning/rotating operations

**Marking:** CE-marked

**Temperature range:** -40°C up to 200°C

**Safety factor:** 4:1

### Technical data

Method of lift								
Lifting from the side	Attention, when lifting point is attached to the side the max. inclination angle $\beta$ can only be $25^\circ$ / resp. until lifting means touches load (compare chapter 4.3)!							
Number of legs	1	1	2	2	2	2	3 & 4	3 & 4
Angle of inclination $\beta$	$0-7^\circ$	$90^\circ$	$0-7^\circ$	$90^\circ$	$0-45^\circ$	$45-60^\circ$	unsymm.	$0-45^\circ$
Factor	1	1	2	2	1,4	1	1	2,1
Type	Max. weight of load $>G<$ in metric tons for all PowerPoint types with different sling methods

EN: At a lift with one strand and two parallel strands where the inclination angles are at the max. $\pm 7^\circ$ , the lifting method can be assumed as a vertical lift.					EN: When lifting with two, three or four leg lifting means, inclination angles of less than $15^\circ$ shall be avoided, if possible (Risk of instability).
