

Seat for VOLT® Harnesses

Product information

Seat for VOLT® Harnesses is wide seat for working comfortably during suspension.

- Comes with two quick links, and is installed in the designated side slots on VOLT harnesses, to distribute the load between the waistbelt and seat.
- Can be used with a spreader bar to create a central attachment point
- Stows easily in the upper position when not in use
- Side equipment loops allow easy organization of work tools

Material: Polyester, nylon, aluminum

Marking: According to standard, CE-marked, ANSI Z359.11 and CSA Z259.10 (depending on the VOLT harness used)

Standard: EN 358

Note: This seat is not compatible with VOLT WIND harnesses
