

Roof Kit FA8010401

Product information

Roof fall arrest kit is a complete personal fall protection solution designed for work on roofs and elevated surfaces. It combines a full body harness with a fall arrest system that allows safe movement while limiting fall impact forces. This kit is intended for professionals performing installation, inspection, and maintenance tasks where fall hazards are present.

When to choose this product

Best for:

- Roof work including maintenance, inspection, and installation
- Sloped or flat surfaces with identified fall hazards

Product benefits:

- Complete kit simplifies selection and ensures component compatibility
- Full body harness supports secure and stable fall arrest connection
- Integrated fall arrest system reduces impact forces during a fall
- Connectors with locking mechanism improve attachment security

Kit contains:

- Full body harness 2 attachment points and belt, FA 10 203 00
- Guided type fall arrester with energy absorber and Kernmantle rope anchorage line, lg. 15 m, FA 20 102 15
- Steel screw-locking karabiner, gate opening 18 mm, FA 50 101 17
- Anchorage webbing sling, 20 mm wide, lg. 2 m, FA 60 005 20
- Backpack with external zipped pocket, capacity 12L, FA 90 115 00
