Energy Absorber ASAP’ SORBER Petzl

Product information

ASAP® SORBER is a compact energy absorber designed for use with ASAP or ASAP LOCK mobile fall arresters in work at height applications. It reduces impact forces during a fall while allowing users to work at a distance from the rope, helping protect the lifeline from contact with edges or obstacles.

When to choose this product

Best for:

- Fall-arrest systems using ASAP or ASAP LOCK devices
- Rope access work requiring movement away from the lifeline

Not ideal for:

- Two-person rescue scenarios or rescue system configurations

Product benefits:

- Progressive tear-webbing reduces impact forces during fall arrest.
- Flexible webbing follows device movement without restricting mobility.
- Replaceable protective pouch simplifies inspection and maintenance.
- Durable pouch protects absorber from abrasion and contaminants.
- Available in two lengths for reduced fall distance or increased workspace
