

## Chain Sling Powertex 4-leg with Safety Hooks, Grade 10

### Product information

The Chain Sling Powertex 4-leg with safety hooks is a four-leg lifting assembly for general industrial use. It is designed for multi-point lifting where load distribution, secure attachment, and predictable performance are required.

The standard assembly includes a master link, Grade 10 chain, shortening grab hooks, safety hooks, and a marking plate with WLL information. This provides a complete and ready-to-use configuration for everyday lifting tasks.

The sling can also be supplied in alternative configurations with different hooks, master links, or shortening options on request.

#### Best used for:

- Lifting loads requiring multiple lifting points for stability
- Applications where secure hook closure is preferred during lifting

#### Product benefits

- Safety hooks provide a more secure connection, helping reduce the chance of unintentional hook release during lifting
- Shortening grab hooks allows adjustment of individual legs, supporting improved load balance and positioning
- Four-leg configuration supports load distribution across multiple lifting points, helping stabilize complex or uneven loads
- Grade 10 chain provides higher capacity compared to Grade 8, enabling compact setups without increasing chain diameter
- Components are crack detection tested, and samples from each batch are proof load tested, supporting consistent quality control
- Fatigue rated to 20,000 cycles at 1.5x WLL, helping maintain predictable behavior in repetitive lifting applications
- Marking plate shows WLL and angle capacities, simplifying load pla ... [Read more](#)

**Material:** Alloy steel

**Marking:** According to standard, CE-marked

**Temperature range:** -40°C up to +200°C without reduction in WLL

**Finish:** Red powder paint

**Standard:** EN 818-4, AS 3776  
(+25 % WLL)

**Safety factor:** 4:1

**Grade:** 10
