Fixed ECO Lifting Beams PALECOF

Product information

The PALECOF Fixed ECO Lifting Beam is a fixed spreader beam designed for lifting loads from two lifting points while maintaining low headroom requirements. It is suited to general industrial handling applications where a simple, fixed hook spacing solution is required and where compliance with lifting equipment standards is essential.

Best used for:

- Routine industrial lifting with fixed load attachment points.
- Facilities requiring low-headroom lifting configurations.

Product benefits:

- Fixed beam design supports consistent lifting point positioning.
- Two articulated rotating hooks improve load connection flexibility.
- Forged safety latches help maintain secure hook engagement.
- Tear-resistant lifting eye suits slings, wire ropes and cables.
- Delivered with user's and maintenance manual and EC certificate of compliance
