

Pārvietojams enkurpunkts ROLLCLAMP

Preces apraksts

Enables the creation of a mobile anchor point on an R.S.J. and to work in safety while retaining a wide freedom of movement. Thanks to its 4 bearing rollers, the Rollclamp follows movements around the framework with a minimum of user intervention.

- Adjustable from 120mm to 640mm.
- Can be installed on the upper or lower soleplate
